

U Reflection kliknite mišem na **File** pa na **Print Setup** i izaberite štampač Zebra.

Da bi ste pravilno otštampali nalepnicu, u Vašem user-u, morate podesiti u **cobiss-u** u **set up** (koji se dobija kada u COBISS-u pritisnete taster **F4 na tastaturi i ukucate SET UP**) sledeće parametre:

Printer: 17 Ther. line printer (CP 1250)
Script: Cyr ON Greek OFF OldCyr OFF

Tada **set up** ekran izgleda ovako:
